PRIME SHIELD

WHO WE ARE

Engineered protection. Sustainable vision.

Prime Shield is a Saudi company specialising in insulation and general contracting. Based in Riyadh and serving projects across the Kingdom, our management and crews bring more than **13** years of professional experience, since 2013.

OUR VISION

To be a trusted reference in insulation and contracting, and to help create buildings that last for generations, in support of Saudi Vision 2030.

OUR MISSION

Integrated solutions that protect buildings and extend their service life, and lasting client relationships built on transparency and commitment.

SECTORS WE SERVE

- Government & Sovereign
- Hospitality & Hotels
- Shopping Centres
- Residential & Real Estate Development
- Industrial Facilities

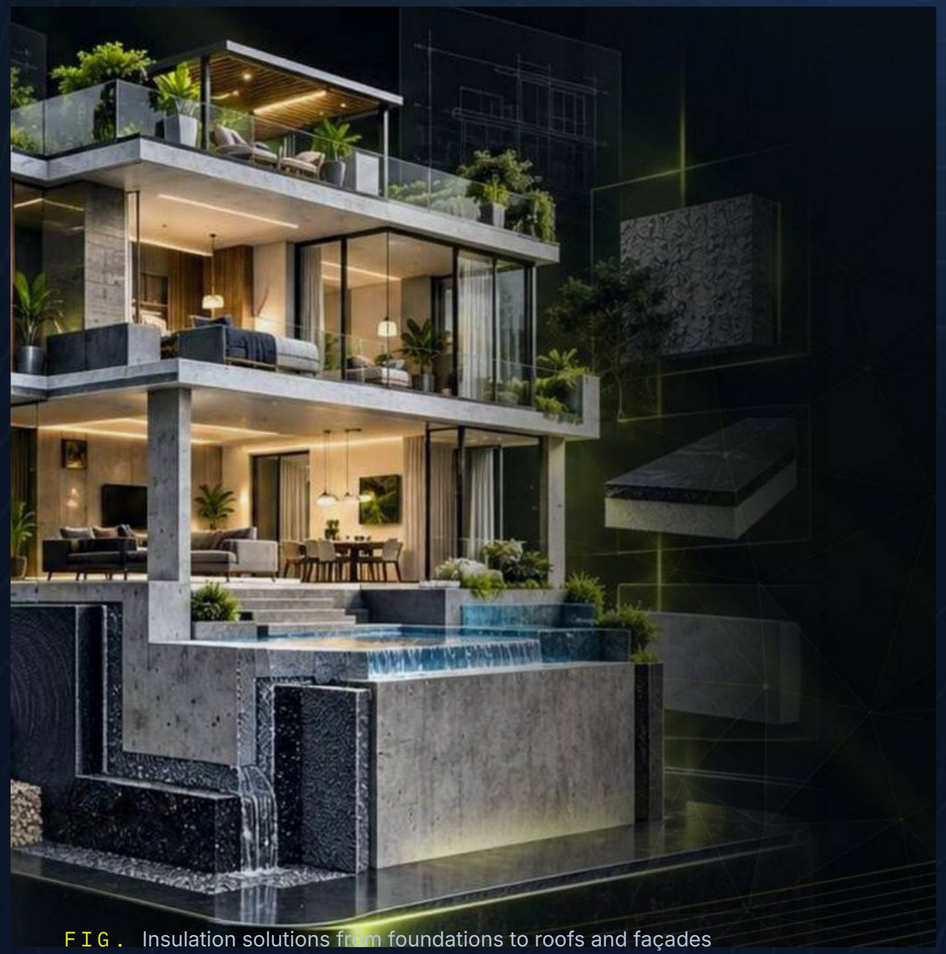

FIG. Insulation solutions from foundations to roofs and façades

01
Precision
Approved specifications and stage-by-stage checks on every layer.

02
Trust
Clear contracts and on-time delivery.

03
Quality
Approved materials and documented tests before handover.

04
Safety
Protecting people and facilities on every site.

PRIME SHIELD

FOUNDER'S LETTER

A professional legacy we are proud of.

I am proud to carry on the journey of my dear father, Eng. Hassan Elomda — may God protect him and bless his years. He laid the foundations of this business when he established Al-Manashi, and together we continued the journey by founding Top Tech some thirteen years ago.

I had the honour of working under his management and leadership for ten years, during which we delivered many major projects across the Kingdom. After he returned home, I founded Prime Shield to carry forward his journey, his vision and the values he instilled in us.

What we deliver today extends a deep-rooted professional legacy, built on quality, trust and precision, and on our commitment to every project and every client.

Eng. Hossam Hassan Elomda

PRIME SHIELD

SECTION 02 · WHAT WE DO

Six pillars.
A fully protected building.

From foundations and basements to roofs, façades and floors: integrated delivery under a single point of responsibility, covering more than 26 work items.

1 **General contracting & finishes** — TURNKEY · MEP · FINISHES
Structure, architectural and MEP works through to turnkey handover.

2 **Waterproofing & structural protection** — PU · POLYUREA · SBS · APP
Roofs, basements, tanks, swimming pools and wet areas.

3 **Thermal insulation & envelope efficiency** — PU FOAM · XPS · EPS
Polyurethane foam, XPS and EPS boards, and foam concrete.

4 **Concrete protection & injection** — INJECTION · CRYSTALLINE
Injection, joints, anti-carbonation and crystalline waterproofing.

5 **Epoxy flooring & line marking** — EPOXY · MICROCEMENT
Car parks, warehouses and facilities, with line marking and numbering.

6 **Synthetic & bituminous membranes** — PVC · TPO · EPDM · HDPE
PVC, TPO, EPDM, HDPE, geomembranes and bituminous rolls.

PRIME SHIELD

WATERPROOFING · WHERE WE PROTECT

Every point where water can get in has its own system.

The glowing lines in the section are the protection layers we install. The system is selected according to the structure, the substrate condition and the approved specification.

1 Roofs & terraces — PU · POLYUREA
Integrated waterproofing and thermal insulation with screed to falls, detailing of corners and penetrations, and a final protection layer.

2 Basements & foundations — SBS · APP · HDPE
External waterproofing of floors and walls with membrane rolls, plus internal cementitious or crystalline waterproofing.

3 Tanks & sumps — EPOXY · CEMENTITIOUS
Internal and external systems suitable for potable-water tanks, plus treatment of sumps and lift pits.

4 Swimming pools — CEMENTITIOUS · PU
Waterproofing of pool shells and concrete treatment before finishes, with flood testing and handover.

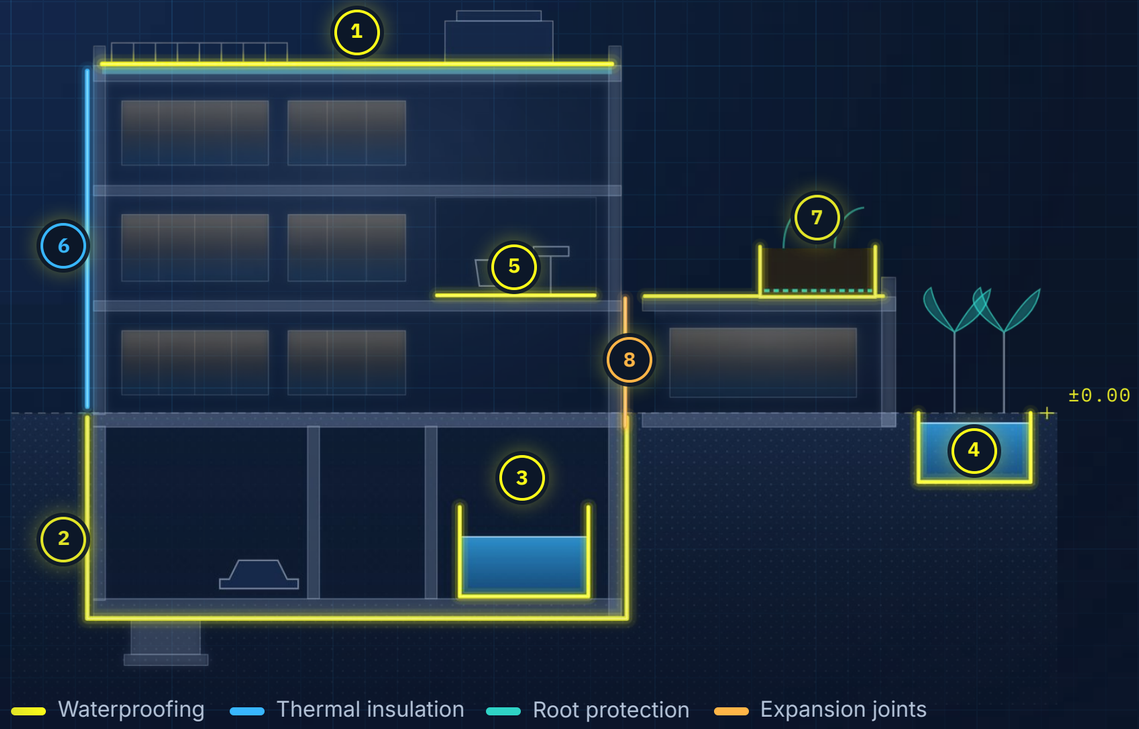

5 Bathrooms & kitchens — CEMENTITIOUS · PU
Waterproofing of wet areas inside units, with detailing of corners, drain outlets and penetrations.

6 Walls & façades — CEMENTITIOUS · EPS
Protecting walls from damp and leakage, and thermal insulation within the building envelope.

7 Planters — BITUMEN · LIQUID MEMBRANE
Waterproofing of planters across floors and terraces, with root protection.

8 Expansion joints — SEALANTS · JOINT TAPE
Treatment of structural expansion joints with tapes, flexible materials and approved accessories.

SECTION · ILLUSTRATIVE · NOT TO SCALE

PRIME SHIELD

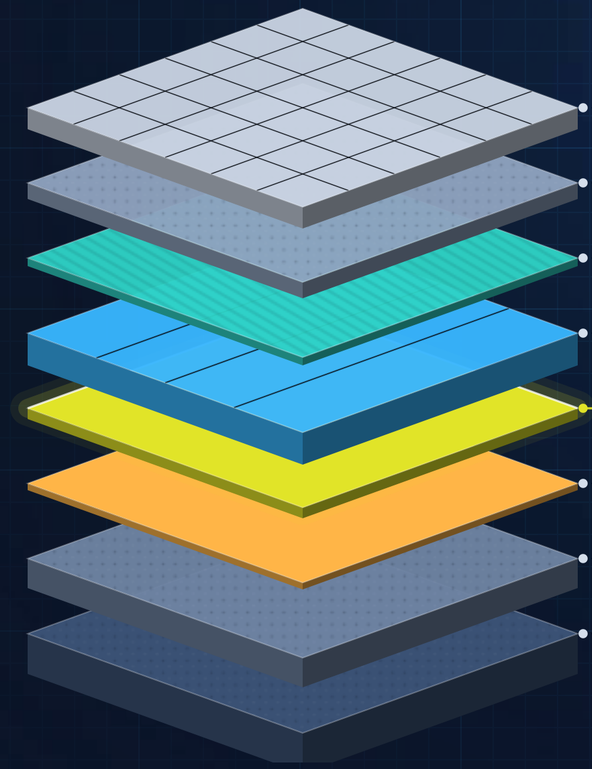

TECHNICAL SECTIONS

Unseen details, lasting protection.

Illustrative sections of the two systems we install most often. Final thicknesses and materials are set by the specification and the consultant's approval.

Inverted roof

INVERTED ROOF · 8 LAYERS

Tiles / final finish
Mechanical protection

Bedding mortar
Levelling and fixing

Geotextile separation layer
Prevents abrasion

XPS thermal insulation boards
Energy efficiency

Waterproofing membrane
Core protection · SBS / PVC / TPO / PU

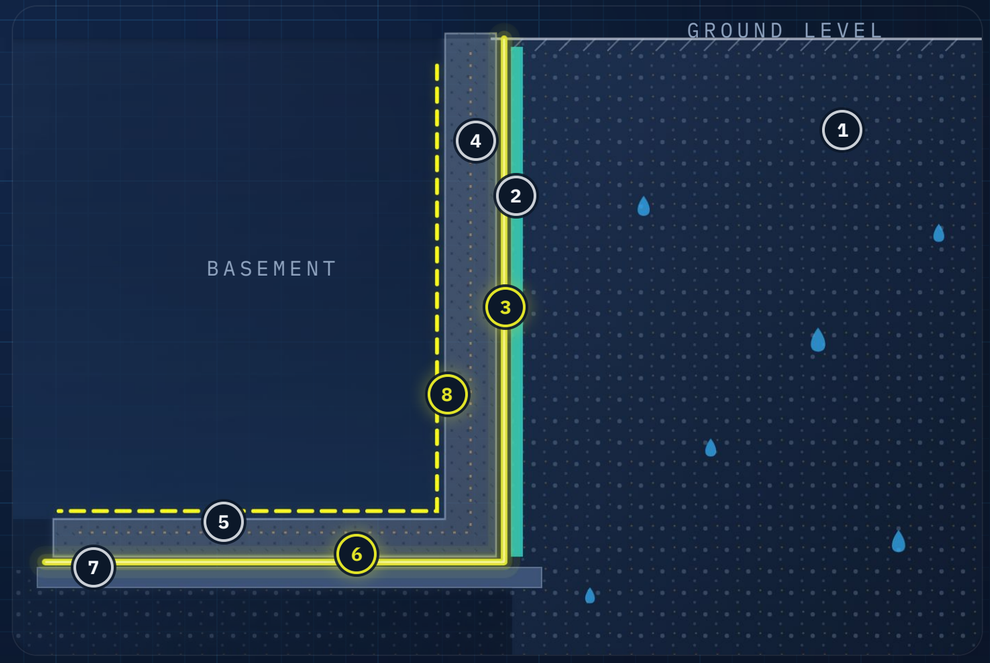

Primer
Full adhesion

Foam-concrete screed to falls
Directs water to the drains

Concrete slab
The structural element

Basement: a continuous envelope

BELOW-GRADE ENVELOPE

Continuous external membrane
Membrane rolls on the floor and walls up to ground level.

Internal waterproofing
Cementitious or crystalline, for walls, tanks, lift pits and sumps.

Protection & backfill
A protection board for the membrane before backfilling and compaction.

PRIME SHIELD

SPECIALIST DISCIPLINES

Five disciplines, documented field experience.

Each discipline is paired with a project actually delivered within the 2026 portfolio.

General contracting & turnkey delivery

- Excavation, foundations and structural works
- Electromechanical and low-current works
- Façades, glazing and aluminium
- Interior finishes: 12 items through to handover

22 work items

Thermal insulation

- Spray polyurethane foam
- XPS boards for inverted roofs
- EPS boards for façades and ceilings
- Foam-concrete screed to falls

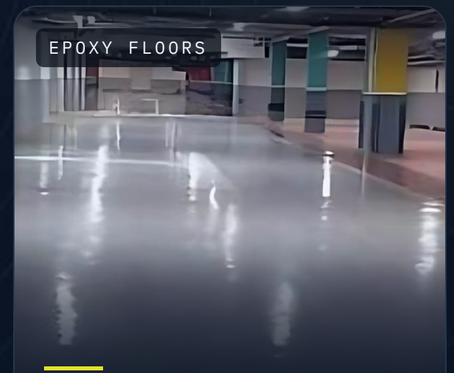

Al-Safa Hills · 69 villas

Concrete protection

- Anti-carbonation for basement ceilings
- Crystalline and cementitious waterproofing
- Injection and crack repair
- Expansion joints and accessories

Dyari Signature · 15,000 m²

Epoxy flooring

- Epoxy for car parks and warehouses
- Line marking, numbering and traffic lanes
- Potable-water tank linings
- Microcement and protective coatings

Al Rajhi Headquarters · 14,800+ m²

Specialist membranes

- PVC and TPO roofing membranes
- EPDM, HDPE and geomembranes
- SBS / APP bituminous membranes
- Hot- and cold-applied polyurea

KitchenPark · 3 sites

AiM INDUSTRIES

شهادة مركب معتمد
Approved Applicator Certificate

AIM Industries KSA (Al Motatawir Industrial Company) hereby certifies that:

Prime Shield Company

is an Approved Applicator for the installation and application of AIM Industries waterproofing and construction material systems in the following fields:

- Waterproofing systems for underground structures,
- Waterproofing systems for concrete roofs.
- Waterproofing systems for metal roofs.
- Waterproofing systems for wet areas.

The above-mentioned company has demonstrated the technical capability, practical experience, and professional competence required for the proper installation and application of AIM Industries systems in accordance with the manufacturer's recommendations and industry best practices.

Disclaimer:
AIM Industries KSA shall not be held liable for any defects, failures, damages, or losses resulting from improper installation, poor workmanship, deviation from approved application procedures, or the use of non-approved materials within the waterproofing system.

This certificate is issued upon request and does not constitute any warranty, guarantee, or additional liability on the part of AIM Industries KSA.

Date of Issue:
07 / 07 / 2026

AIM Industries KSA
General Manager

شركة المتطور الصناعية (ايم إندستريز)
تشهد بأن

شركة برايم شيلد

هي مركب معتمد لتطبيق منتجات وأنظمة شركة المتطور الصناعية (ايم إندستريز) في المجالات التالية

- أنظمة العزل المائي للمنشآت تحت الأرض بما في ذلك الأنفاق وخزانات المياه الخرسانية والمباني الصناعية
- أنظمة العزل المائي لأسطح الخرسانة للمباني السكنية والتجارية والحكومية
- أنظمة العزل المائي لأسطح المعدنية للمصانع والمستودعات والمنشآت الصناعية
- أنظمة العزل المائي للحمامات والمطابخ والشرفات
- أنظمة الحماية والعزل لتأسيسات والجدران الاستنادية والمنشآت الخرسانية
- تطبيق أنظمة العزل المائي باستخدام الأغشية البيتومينية والمنشآت الإسمنتية ومنشآت البولي يوريثان

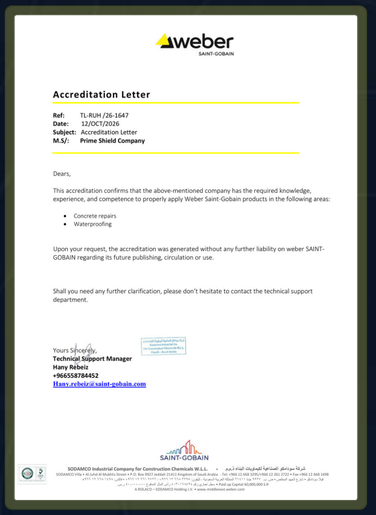

تقر الشركة بأن الجهة المذكورة أعلاه قد أظهرت المعرفة الفنية والخبرة اللازمة لتطبيق أنظمتنا وفق الأصول الفنية ومتطلبات الشركة.

إخلاء مسؤولية:
لا تتحمل شركة المتطور الصناعية (ايم إندستريز) أي مسؤولية عن الأعطال أو العيوب أو الأضرار الناتجة عن سوء التركيب، أو استخدام مواد غير معتمدة، أو عدم الالتزام بتعليمات التطبيق أو استخدام المنتج لأغراض غير مخصصة له.
